Education

2022 - 2025

WelTec, Petone and Whitireia Porirua
Bachelor of Information Systems:
Programming Major

- Relevant study included:
- Web Application Development
- Intelligent Systems Development
- Database Design and Management
- Information Security
- Networking Fundamentals
- Software Development
- User Experience and Interface Design

2022

Whitireia Porirua

Diploma: Information Systems
Developed foundational knowledge of programming, databases, networking, information systems and software development.

2021

Whitireia Porirua

Certificate: IT Essentials
Developed practical knowledge of computer hardware, software, operating systems, networking and IT support fundamentals.

2018 - 2020

Newlands College Wellington
NCEA Levels 1 and 2

Skills

Technical Skills

- **Programming:** C#, Python, SQL, JavaScript, HTML5 and CSS
- **Frameworks:** ASP.NET Core MVC, Entity Framework Core, ASP.NET Core Identity, Razor Views, Windows Forms and Bootstrap 5
- **Databases:** SQL Server, SSMS, MySQL, T-SQL, relational database design and migrations
- **Development Concepts:** Object-Oriented Programming, MVC, CRUD, Repository Pattern, Dependency Injection, authentication, authorisation, session management, debugging and testing
- **Tools:** Visual Studio, VS Code, Git, GitHub, Jupyter Notebook, Unity Editor and RStudio
- **Additional Knowledge:** PyTorch, R, Java, PHP, C++, networking, information security, cloud computing and virtual machines
- **Microsoft Office:** Word, Excel and PowerPoint

Key Strengths

- **Problem-Solving:** Investigates issues and tests practical solutions.
- **Technical Learning:** Quickly learns new systems, languages and tools.
- **Attention to Detail:** Produces accurate code, data and documentation.
- **Communication:** Works well with others and communicates clearly.
- **Organisation:** Manages deadlines, study, work and projects effectively.
- **Initiative:** Researches problems and takes ownership of tasks.

Professional Profile

Junior software developer and Bachelor of Information Systems graduate (Programming major, 2025) with hands-on experience building full-stack web applications in C#, ASP.NET Core MVC, Entity Framework Core and SQL Server.

Co-developed a team e-commerce application covering authentication, shopping cart, order tracking and CRUD. Brings 3+ years of customer-facing work, useful for application support and service desk roles.

Seeking a junior developer, web developer, application support or graduate technology role in Wellington.

Technical Projects

Gym Store E-Commerce Web Application (team project)

Technologies: C#, ASP.NET Core MVC, Entity Framework Core, SQL Server, Bootstrap 5 and ASP.NET Core Identity

- Co-built a full-stack store where users browse product categories, add items to a session-based cart and track orders.
- Secured user accounts with ASP.NET Core Identity, covering registration, login and account management.
- Modelled product, cart and order data in SQL Server and managed schema changes with Entity Framework Core migrations.
- Structured the codebase with MVC, Dependency Injection and the Repository Pattern to separate data access from UI logic.
- Built responsive Razor views with Bootstrap 5, image uploads and form validation; tested and debugged features before submission.

C# Mathematics Game

Technologies: C# and Object-Oriented Programming

- Built a game that generates random maths equations, using classes, methods and conditional logic.
- Tested the game against a range of valid and invalid inputs to confirm it behaved correctly.

Work history

2023 - 2024

J & M Fast-Food | Courtenay Place, Wellington
Food Server and Food Preparation (part-time while studying)

- Served 100+ customers per busy shift, resolving order issues on the spot and processing payments accurately.
- Kept service moving at peak times by relaying order status between the counter, kitchen and customers.
- Switched between counter service, food preparation and cleaning as demand changed.

2020 - 2022

Capital Gateway Motor Inn | Newlands, Wellington
Kitchen Hand (part-time)

- Supported chefs through services of up to 30 meals, preparing pizzas, desserts and other menu items.
- Prioritised prep, dishwashing and cleaning under time pressure, keeping workstations to hygiene standards.
